Online job agency flyer for email and post

Flyer for a newly established online recruitment agency based in the Midlands

Jobagency.com

A new advertising and recruitment resource providing an exclusive service to recruitment professionals in the Midlands

Dear Employer,

Jobagency.com is a new internet based job board and recruitment agency serving the Midlands and we would welcome the opportunity to come and see you to discuss some of the innovative products & services we can offer.

In anticipation of our meeting there are two key areas I would like to highlight -

- Firstly – our introductory pricing package of £1200

For the first 12 months your company can place as many job vacancies, as often as you like, on the site. This includes your logo, unlimited text, access to our CV finder and receiving job applications direct to your inbox. Our staff will place the jobs on the website for you.

- Secondly – working together

We have invested heavily to advertise the site and ensure that large numbers of enquiries are generated daily, both on and offline.

Added to this, the Jobagency website uses leading edge technology and search engine optimisation strategies which mean we can very quickly generate enquiries for jobs that you are specifically looking to fill.

We believe Jobagency has a number of distinct advantages over other job boards and traditional media advertising, not least in the areas of cost-effectiveness and the speed with which you will be able to fill your job vacancies.

We would like to come along and have an exploratory chat for half an hour and explore any opportunities there may be in us working together.

I will call you in a few days to arrange a mutually convenient time but, in the meantime, please visit the website and contact us if you wish to discuss anything further.

Yours sincerely,

END
